

At KTNV-Channel 13 Action News we are committed to making Las Vegas a better place for locals and their families. We strive to solve the everyday problems that can make life in Las Vegas frustrating.

Action News tackles problems that government and big business ignore. We ask the tough questions and hold those in authority accountable.

Attached are the community based stories covered by KTNV-Channel 13 for 3Q09 reflecting (5) significant issues that Southern Nevadans are affected by the most; Health and Welfare, Economic Development, Politics, Education and Public Safety.

Our community involvement extended far beyond covering these issues in our newscasts this 3Q09. Along with covering these stories that matter to the Southern Nevada community, Journal Broadcast Group's On-Air Talent and Behind-the-Scenes staff addressed our community's needs by participating in local events that were areas of concern for them.

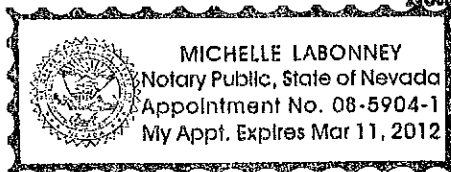

Specific to 3Q10 was the annual MDA Telethon, in which our Anchors lent their talents to Jerry's Kids and inspired the raising of over \$800,000 in the Las Vegas Area alone. Our semi-annual Stuff The Bus event also found locals willing to answer the call and provide for local teachers/students in need. A total of 10,000 school supply items were collected and re-distributed into the Clark County School District.

Also specific to 3Q10 was the annual clean up at Mt. Charleston. This community service project is hosted by Wells Fargo and supported and promoted in the partnership with Channel 13. Volunteers from both organizations are asked to assist with the end of summer clean up, left by visitors. Thousands of pounds of trash and refuse are collected in a designated area. News coverage takes place on the day of the event with on-air talent and is repeated in several newscasts over the next few days. The event is significant, as it is community based and has a dual message that aligns Wells Fargo not only with the volunteer message, but also with an environmental "Go-Green" message to Las Vegas. The years that Wells Fargo has been partnered with Channel 13 for the Mt. Charleston Clean up is one that is not only agreeable with the viewers in the community, based on feedback, it is expected.

It's called a high risk pool and to qualify, you must have been uninsured for 6-months and have a pre-existing condition. The Federal funding will only cover about 2900 people here in Nevada. "For Lease" just about forever or at least it may seem that way. The home foreclosure crisis many Valley residents are experiencing now may pale in comparison to the commercial real estate crisis. Jake Joyce with Applied Analysis says about a quarter of nearly 50 million square feet of commercial space in the Valley is empty. Older projects can cut deals for tenants, but newer ones with higher debt can't. It's a double whammy. Joyce predicts the housing market will rebound before commercial real estate which depends more on consumer spending. Produced by Sharon Tutrone, Broadcast Date: 07/21/10- 5PM Newscast. Produced by Sharon Tutrone, Broadcast Date: 08/02/10- 4PM Newscast. (:25 seconds).

NEWS SEGMENT: The Southern Nevada Index of Leading Economic Indicators fell more than a half point in July. That's according to UNLV's Center of Business and Economic Research. So while the District met the Federal targets, half of the actual schools did not. Administrators still say many of those schools have made tremendous improvements. NEWS SEGMENT: Nevadans can "Stand Up For Education" tonight. The Nevada State Education Association wants you to send a message to our state lawmakers telling them education can no longer be at the bottom of priority lists. You may recall that last month, Nevada lost out on the latest round of federal education money when our application for a "Race to the Top" grant was denied. The Clark County School District, which is the fifth largest in the nation, really needs the money, and the Department of Education recently reported that 347 Nevada schools did not meet the annual yearly progress as required by the "No Child Left Behind Act". Furthermore, back in May, Clark County School teachers agreed to forego pay increases for one year in an effort to save the district about \$15 million... Keeping teachers in place is just one issue the Nevada State Education Association wants changed. Other topics include funding for our classrooms and supporting schools and employees who serve at-risk students. But the NSEA says they need your help to get lawmakers to create a new bill including these changes. To do that, you can either call 1-866-608-6355 or send emails to state lawmakers... Produced by Rosemary O'Donnell, Broadcast Date: 08/25/10- 6AM Newscast. (:90 Seconds).

Produced by Brian Anslinger, Broadcast Date: 09/02/10- 8PM Special Newscast. (:25 Seconds).

NEWS SEGMENT: Educators across the state are making strides to improve education of low-income kids. Nevada ranks 18<sup>th</sup> on a new report by the American Legislative Exchange Council. Vermont took the top spot on the list. South Carolina ranked lowest. Produced by Brian Anslinger, Broadcast Date: 09/06/10- 630PM Newscast. (:25 Seconds).

NEWS SEGMENT: As we learn of the three candidates being considered for the CCSD Superintendent position, many parents and others involved in education wonder if there was a better way to conduct the search. CCEA President Ruben Murillo said, "You have to ask yourself did the company that did the procuring of the applications and the vetting of these candidates really do the best job possible? I hope that they did." ... Perhaps as important as the candidates' qualifications is how they'll deal with all of the problems that CCSD is facing now and in the future. Produced by Aubrey Clerkin, Broadcast Date: 09/17/10 – 6PM Newscast. (:90 seconds).

NEWS SEGMENT: A Las Vegas student will have a hand in shaping Nevada's education. Governor Jim Gibbons appointed Zhan Okuda-Lim to the Blue Ribbon Task Force. The Valley High School Senior is Student Body President and served as his Class President for three years. Gibbons says the young man has been an advocate for education since his freshman year and will bring insight to the group on what's needed to improve classrooms. ## PUBLIC SAFETY

NEWS SEGMENT: Metro wants to show you how police fight cyber crime. That's the topic of tonight's First Tuesday. Officers from the Department's Computer Forensics Lab will talk about gathering electronic evidence from high tech criminals. There's a First Tuesday at every area command tonight. Produced by Rosemary O'Donnell, Broadcast Date: 07/06/10- 5AM Newscast. (:15 Seconds).

NEWS SEGMENT: Local Law Enforcement Agencies were gathering at the Las Vegas Motor Speedway to sharpen their skills in the event of a major emergency. The Department of Homeland Security requires agencies test their inter-operability and communication in the event of a major attack or natural disaster, so today agencies went through all their communication equipment to make sure they're ready if they ever need to join forces. "When you drive the whole valley, you cross a lot of jurisdictions. Obviously what we want to do from a law enforcement, public safety standpoint is work together between agencies." Produced by Brian Anslinger, Broadcast Date: 07/14/10- 630PM Newscast. (:40 Seconds).

NEWS SEGMENT: Metro has declared an all-out war against car theft around the Valley in recent years and it's really starting to pay off. According to online reports Las Vegas-Paradise has the second highest rate of Grand Theft Auto in 2007. But by last year, the ranking had dropped to 9<sup>th</sup>. Here are the numbers from the National Insurance Crime Bureau. About 563 cars were stolen last year for every 100,000 Las Vegas. That's down by almost half from 2007... Produced by Brian Anslinger, Broadcast Date: 07/23/10- 6PM Newscast. (:35 Seconds).

NEWS SEGMENT: A lot of locals are worried about the safety of their neighborhoods because of all the foreclosed and empty homes. Metro is addressing the issue at a meeting tonight. They'll talk about safety and assistance programs available for homeowners in trouble. It starts @ 7PM tonight at the Jerry Keller Training Center on West Cheyenne. It's Free, but there's only room for 130 people. Seating starts @ 6:45AM. Produced by Lisa Link, Broadcast Date: 07/27/10- 6AM Newscast. (:20 Seconds).

NEWS SEGMENT: A survey conducted within Metro revealed most of its officers were not wearing seatbelts in 2009 while on duty. It was also a difficult year for the department which lost 3 of its own in accidents where all 3 were not wearing seat belts. Drew Karedes joins us with details and why the Sheriff says he won't let it happen again... Sheriff Doug Gillespie says his department is still reeling from last year, but they're also proactive about changing their ways. He says a new policy is being strictly enforced that could potentially save officers lives down the road. Sheriff Doug Gillespie says after digging deeper he's recognized a national trend of officers failing to buckle up, but he admits that is no excuse for his department. What had transformed into a deadly and tragic year for Metro has inspired change. While the department had come under fire in the past for officer driving habits, a new campaign plastered above the door handles of every patrol car (BUCKLE UP) is a step in the right direction. Produced by Sharon Tutrone, Broadcast Date: 07/30/10- 4PM Newscast. (:90 Seconds).

NEWS SEGMENT: Some police officers were literally pounding the pavement today to improve pedestrian safety. They set up a checkpoint on Boulder Highway and corn. Then a plain clothes officer walked back and forth on the crosswalk. They ticketed several drivers who failed to yield. Officers haven't said how many tickets were issued but they say it's not about increasing revenue. Their goal is to educate drivers about sharing the road. Produced by Sharon Tutrone, Broadcast Date: 08/06/10- 5PM Newscast. (:30 Seconds).

NEWS SEGMENT: Metro's Gang Unit continues investigating a triple shooting at a local skate park and that has many concerned about a rise in violence at places where children play. Park Police say the gunfire at Winchester Park and Community Center could have been prevented. They haven't patrolled that park since April. The county gave oversight to about 60% of its parks to Metro... Park Police claim violent incidents have increased at County Parks they no longer patrol, but the county says there aren't enough park police to go around. Produced by Allison Anslinger, Broadcast Date: 08/19/10- 11AM Newscast. (:45 Seconds).

NEWS SEGMENT: Local authorities from several different agencies are teaming up to launch a new initiative in the fight against terrorism. Part of the strategy involves your help to keep our Valley as safe as possible. Officials want to make sure when people come here to Las Vegas, they don't have to worry about their safety. Congresswoman Dina Titus has a helping hand in these efforts as a proud member of the Homeland Security Committee. She and other officials spoke out today in front of the Las Vegas sign to stress how important the public's vigilance is. The campaign urges everybody from every day residents to casino workers to cab drivers to keep a watchdog mentality. Of course, being the entertainment capitol of the U.S. makes Las Vegas a prime target for terrorist attack, so authorities want people to be on the lookout for suspicious activities. Metro's Homeland Security Team plans on presenting this campaign in all of its area command centers starting early September. Produced by Sharon Tutrone, Broadcast Date: 08/19/10- 5PM Newscast. (:90 seconds).

NEWS SEGMENT: If you're concerned about safety in your neighborhood, there's a gathering tonight to help you learn how to stop gang activity in its tracks. Metro and the Clark County Parks and Rec Gang Intervention Team are hosting an informational forum tonight. It starts at six at the Walnut Community Center. Experts will outline what you should do if your child is involved in gangs. They'll also outline how to detect warning signs and other risk factors. Produced by Lisa Link, Broadcast Date: 08/23/10- 7AM GMA CUT-IN. (:20 Seconds).

NEWS SEGMENT: Las Vegas Business Watch is teaming up with Metro for its monthly meeting tomorrow. They're hosting a free training seminar on business security and safety assessment. The program called Crime Free Business starts at 1:00pm at the enterprise command on west Windmill near Rainbow. Produced by Brian Anslinger, Broadcast Date: 08/25/10- 630PM Newscast. (:15 Seconds).

NEWS SEGMENT: Terrorism and Homeland Security are the topics for tonight's "First Tuesday" by Metro. Officers want to help educate the public on identifying and reporting suspicious activity as part of the "See Something, Say Something" campaign that recently started in Southern Nevada. They'll also break down the 7 signs of terrorism. Seating is on a first come first serve basis. The meetings start @ 7pm at your local Metro command. Produced by Brian Anslinger, Broadcast Date: 09/07/10- 6PM Newscast. (:25 Seconds).

NEWS SEGMENT: A proposal is on the table for a single large agency to cover all of Clark County, but is it really doable and what does it mean for the future of fire protection? This is not a new idea. It has been tried several times without success, but several people in support of the bill say this is cost effective and smart. The cities have all come together now so there's really no distinction on as far as, no one knows where the border is. That is why one representative from Assembly District 9 is calling for consolidation between Las Vegas, North Las Vegas and Clark County. Metro, the police department, has a unified police department, so why not try to consolidate the fire departments. It's called a cost saving measure for everyone involved, but is it? Experts say when Metro consolidated the best perks of each agency were brought over including pay rates... Cost savings that would come not immediately but in the long term. Lawmakers will consider efficiencies in government and local fire departments while at the same time providing the same high level public safety. Produced by Traci Wilson, Broadcast Date: 09/15/10- 5PM Newscast. (2:00 Minutes).

NEWS SEGMENT: Valley parents and kids picked up some important tips during today's safety fair. The free event was held at the Toys-R-Us Plaza at Decatur and US 95. The fair featured free car seat safety checks, 911 awareness tips from Metro Police and Fire safety with Las Vegas Fire and Rescue. Kids also had the chance to meet other safety professionals like ambulance drivers, plus see their emergency response vehicles. Free fingerprinting kits were also given out at today's fair. Produced by Lisa Link, Broadcast Date: 09/18/10- 430PM Weekend Newscast. (:30 Seconds).

NEWS SEGMENT: Some children in North Las Vegas are being recognized for putting safety first, while they ride their bikes. Elementary school students spotted wearing a bike helmet received a reward. It's all part of the "Retain your Brain" program to teach kids to put on their helmet before they take-off on their wheels. More than 6,000 students at a dozen elementary schools learned about bike safety during the 3-year program. Produced by Brian Anslinger, Broadcast Date: 09/22/10- 630PM Newscast. (:35 Seconds).

NEWS SEGMENT: This afternoon we learned more about Gillespie's New "Force Investigation Team". It will be composed of 6 Homicide Detectives who volunteered to take part. Deputy Chief of the Investigative Services Division, Jim Owens, says he'll take a more careful look at officer involved shootings. Owens says the FIT Team will relay their findings to the "Critical Incident Response Team" Produced by Brian Anslinger, Broadcast Date: 09/29/10- 630PM Newscast. (:25 Seconds).
